DIRECTOR'S NOTES

She Kills Monsters was willed for this school year by last year's directors. Though I did not choose the script, over the last six weeks I have become very driven to bring to the stage this narrative in as consummate a way as possible, as a lot of historical circumstances drive the undercurrents of this show. D&D was created in 1974 by Gary Gygax as a low-tech game for collective storytelling played with pens, paper, many-sided dice, and figurines. It was considered "deviant culture" by the mainstream, though the thought that a game of make believe could pose a risk to youth seemed absurd to the players of the time. Many people were in the grips of the "Satanic Panic" where the "crisis of the family" was a huge pillar of debate. Likewise, the show is set directly in the middle of the AIDS epidemic. Laws like DOMA and "Don't Ask, Don't Tell", as well as others, were making it even more difficult for a community to survive as they were losing members by the hundreds of thousands. The intersectionality of both of these events lend context to a show that has subtle emotional depth. It's been a joy working with the actors to unpack all of this and stay truthful, as we bring this story to you all. I hope you enjoy and are as pleased with all the work put into this production as I am. To the cast and crew: Break Legs!

Besides his music career, Don has conducted, Directed, and served as Technical Director for nearly 60 musicals and 30+ plays over the years. Don's first year in NC (2016) brought theatre accolades at Triangle Rising Stars where he and his students were awarded best Set Design and Lighting Design for their work on Tarzan, the Musical. In August of 2019, Don's students performed at the Fringe Festival in Edinburgh, Scotland. Don feels very fortunate to have moved into such a thriving theatre community. He also appreciates all the support given by the Administration, Faculty, and Parent organizations. None of this would be possible without the support of his wife Sheila and son Dylan. Most of all, Don truly enjoys working with incredibly talented students and Fine Arts Staff.
